The image displays three sequential screenshots of a web application interface, likely a ticketing or booking system. Each screenshot shows a table of orders with a 'View options' modal open. The modal contains checkboxes for 'Extra columns' (Booking reference, Notes counter, User, External product ID, POS type, Payment external reference, External reference, Sales reference, Main booker email, Third party reference) and a 'Show direct' checkbox. The table lists various orders with details like Order ID, Order date, and Status. The interface includes a search bar, a 'Select date' dropdown, and a 'Booking date' dropdown. The table is sorted by order date, and the 'Orders per page' is set to 10.
